

HEROES WEEKEND CRAFT

FIRE FIGHTER HATS

All you need for this simple craft is a paper plate and paint or markers. Then just stand back and watch your little firefighter save the day!

Here is what you need to make a paper plate firefighter hat:

- a paper plate (preferably the cheap, flexible kind)
- red paint
- yellow construction paper
- a black marker
- glue
- scissors

1. Paint a paper plate red, and allow to dry:

2. While plate is drying, cut a crest shape out of yellow construction paper.

Draw an "F" and "D" on the crest with a black marker:

3. Once paper plate is dry, make a "U" shaped cut in the inner portion of the paper plate. Size the cut to fit your preschooler or toddler's head. Here is what it should look like:

4. Glue the crest onto the inner flap portion of the plate, and bend it upwards until you are happy with the shape and you're done!
